

BOSCH FAMILY IN PERU

MARCH 2020

Back 'home' again in Peru...

It has already been a couple of weeks since we got back in which Jordi, in this case, changed his clean church work in Holland for digging holes on his knees for the constructing changes at Brazos.

As a family we look back on a nice and fruitfull furlough! Meeting family and friends, presentations in churches and companies and a interview on the national radio were to be considered the higlights. During all the visits, 19 children got themselves a new sponsor! Our children loved going to the Dutch school and every day play dates made it even less boring.

Once back, we didn´t have much time to adjust and maybe for the better. Work was waiting and that was fine as well.

DONATIONS AND BUILDING

We are so grateful for all kinds of donations! Like these delicious granadillas. I sent the donor a thank you picture of Sheyla, who went home with a bag of fruit. This touched the donor and decided to donate two boxes more.. Also, we are grateful for our visiting mission team from Milwaukee, who realized some extreme construction goals as well as spending quality time with women and participating in a VBS. And thanks to a donation, we could replace the shadow net over the playground which had been blown away by a whirlwind. God is good!

THE BATTLE...

Unfortunately we also face the hard reality and this doesn't consist in smiling and shining faces. One of the women came up to me at church and started to share that her husband hasn't been giving her any money for food for a time already, nor for the costs of the study of their 3 teenage children. Recently she discovered that he has someone else. I met her, skinny on the bone with a wheel barrel to make herself a floor on a new place. The money to make her little house was still pending, but she was fighting for it. As a church we decided to support her and encourage her with our care and presence.

GREETINGS

Last week, about 70 children came to our vacation bible club (VBC) with a fresh dive into the pool to close the week! Thank you for your compassion! We ask your consisting prayers for wisdom. It's hard to describe what we have to face daily and what decisions need to be made. This also refers to our ambitious building plans for the Brazos building. We decide to trust our Lord and with that, we know we will overcome!

***With lots of love, Jordi en Ria
Timo, Joah and Hanna***
